

Contents

This document provides information for the release of the external TRS application (TRSe), including its interface with the internal TRS application (TRSi).

New

Functional Highlights

TRS allows users to validate that a trading partner is a member of the United Kingdom (U.K.) Approved Community under the U.K., Defense Trade Cooperation Treaty. Users may enter an Approved Community Identification Number (ACID) that has been supplied by its trading partner. If the ACID is valid and the trading partner is an active Approved Community member, the name and address of the member will be returned. The user may print a copy of the validation page.

Users who enter invalid ACIDs will be locked out of the system for escalating periods of time. If a user receives a message that they have been permanently locked out, they must contact the DDTC Help Desk (see below) to regain access to the TRS application.

TRSe data is updated daily based on information managed and maintained by DDTC in the internal TRSi application.

Support

Please use the contacts below to report any issues or to obtain information regarding the latest software version, recent release note revisions, or additional assistance:

TECHNICAL SUPPORT:

Phone: (202) 663-2838

Email: DtradeHelpDesk@state.gov

TREATY SUPPORT:

Phone: (202) 663-1282

Email: DDTCResponseTeam@state.gov

To obtain ACIDs, contact your trading partner.
